Hi Victor, before our pickup date on job C7463983, I'd like to get two things confirmed in writing so there are no surprises as the move proceeds. Once I have these I'm set to go.

After my experience with the other company I dealt with the last few days, I just want to ensure I don't get any surprises as we move forward.

1) PRICE: Please confirm $6,692.55 is the firm, all-in total and will not change at pickup or delivery. My inventory is complete and final at 836 cf. I'd like it in writing that Rapid Express will honor $6,692.55 as the binding number on load day and will not issue a new or higher estimate at pickup, including no addition of shuttle, long-carry, stairs, or cubic-foot revision fees.
2) STORAGE: Would you mind reissuing the estimate with a storage line showing $0.00 for 30 days of free climate-controlled storage, including free redelivery to Lake Charles, with delivery on or around 8/14. Your terms state that storage must be added to the estimate at booking, and right now there's no storage line in my charge summary that I'm seeing. Maybe I'm missing it but I'd like to ensure it's on the document. I just need it on the document, not only agreed upon in text or phone call.

Is it possible for you to send the reissued estimate and confirm both of these before the end of the week? I don't mean to be a pain, I just want to ensure our terms are locked.

You've been great so far and I really appreciate you bearing with me.

Marcus

Hi Marcus,

I am writing to confirm both of the items you requested for job C7463983.

First, we honor the total of $6,692.55 as your firm, binding price for the move based on your final inventory. There will be no additional fees or estimate revisions at pickup or delivery.

Second, I have reissued your estimate to include a storage line reflecting $0.00 for your 30 days of free climate-controlled storage, as well as the free redelivery to Lake Charles around 8/14.

Please review the updated document, and let us know if you need anything else before Monday's pickup.

Best regards,
Victor Marinelli

PS. just resending what he wrote to make sure you got it

Cool, really appreciate your patience and diligence.

I think my biggest concern at this point is the carry fee. It's reasonable for it to cost extra based on how far the stuff has to go, but I'm also willing to help move big items personally if that helps with cost. I'm good with 225 like you mentioned, I'm just concerned about it ballooning further.

Smaller items can be carried down alternative paths that are much shorter and probably is around 100ft, but the big items definitely have to go that long distance.

Hi Marcus,

I am telling customer service to add that charge and send you an updated copy of the contract. Just bear with us it is very busy but it will be done today.

Thank youl
